DIN EN ISO 11781:2025-07 (E)

Molecular biomarker analysis - Requirements and guidance for single-laboratory validation of qualitative real-time polymerase chain reaction (PCR) methods (ISO 11781:2025)

Contents

Page

Foreword ... **iv**

Introduction ... **v**

1 Scope ... **1**

2 Normative references ... **1**

3 Terms and definitions ... **1**

4 Principle ... **2**

5 Single-laboratory validation of the performance characteristics ... **2**

5.1 General ... 2

5.2 Limit of detection ... 2

5.3 Determining copies of DNA target sequences in DNA test materials ... 3

5.4 Evaluation of data for the limit of detection ... 3

5.5 PCR efficiency and variability of the measured copy number around the limit of detection ... 4

5.6 Specificity ... 4

5.6.1 General ... 4

5.6.2 Bioinformatic (in silico) test for specificity ... 4

5.6.3 Practical test for specificity ... 4

5.6.4 Robustness ... 5

6 Validation report ... **6**

Annex A (informative) **Estimation of the number of copies of the DNA target sequence** ... **7**

Annex B (informative) **Determination of limit of detection, precision and PCR efficiency** ... **9**

Annex C (informative) **Generalized linear mixed model with log-log link** ... **13**

Annex D (informative) **Robustness testing** ... **19**

Bibliography ... **21**
