DIN EN ISO 16140-3:2026-02 (E)

Microbiology of the food chain - Method validation - Part 3: Protocol for the verification of reference methods and validated alternative methods in a single laboratory (ISO 16140-3:2021 + Amd 1:2025) (includes Amendment A1:2025)

Foreword ... **v**

〈A1〉 Foreword to Amendment 1 〈A1〉 ... **vi**

Introduction ... **vii**

0.1 The ISO 16140 series ... **vii**

0.2 Verification versus validation ... **x**

1 Scope ... **1**

2 Normative references ... **1**

3 Terms and definitions ... **1**

4 General principles of verification of qualitative (detection) methods and quantification methods ... **5**
4.1 General ... 5
4.2 Implementation verification ... 6
4.3 (Food) item verification ... 6
4.4 Requirements for implementation verification and (food) item verification ... 6
4.5 Performance characteristics ... 10

5 Qualitative methods — Technical protocol for verification ... **10**
5.1 Estimated LOD_{50} ($eLOD_{50}$) determination ... 10
5.2 Experimental design ... 10
5.3 Selection of (food) items ... 11
5.4 Artificial contamination ... 11
5.4.1 Selection of strains ... 11
5.4.2 Inoculation of the test portions ... 12
5.5 Evaluation of results ... 14
5.5.1 Determination of $eLOD_{50}$ using protocol 1 ... 14
5.5.2 Determination of $eLOD_{50}$ using protocol 2 ... 17
5.5.3 Use of protocol 3 ... 18
5.6 Acceptability limits ... 19
5.7 Root cause analysis ... 19

6 Quantitative methods — Technical protocol for verification ... **20**
6.1 Intralaboratory reproducibility standard deviation determination ... 20
6.1.1 General ... 20
6.1.2 Experimental design ... 20
6.1.3 Selection of the (food) item ... 22
6.1.4 Natural contamination ... 22
6.1.5 Artificial contamination ... 22
6.1.6 Evaluation of results ... 23
6.1.7 Acceptability limit ... 24
6.1.8 Root cause analysis ... 25
6.2 Estimated bias (eBias) determination ... 26
6.2.1 General ... 26
6.2.2 Experimental design ... 26
6.2.3 Selection of (food) items ... 26
6.2.4 Artificial contamination ... 26
6.2.5 Evaluation of results ... 28
6.2.6 Acceptability limit ... 28
6.2.7 Root cause analysis ... 29

7 Validated alternative confirmation and typing methods — Technical protocol for verification **29**
7.1 General 29
7.2 Implementation verification 29
7.3 Experimental design 29
7.3.1 General 29
7.3.2 Strain selection 30
7.4 Evaluation of results 30
7.5 Acceptability limit 31
7.6 Root cause analysis 31

8 Summary of acceptability limits for the verification of validated methods **31**

9 [A1] Validated identification methods — Technical protocol for verification **31**
9.1 General 31
9.2 Implementation verification 32
9.3 Experimental design 32
9.3.1 General 32
9.3.2 Strain selection 32
9.4 Evaluation of results 33
9.5 Acceptability limit 33
9.6 Root cause analysis [A1] 33

Annex A (informative) **Classification of (food) categories and suggested target combinations for verification studies** **34**

Annex B (informative) **Guidance on how to choose challenging (food) item(s) for (food) item verification** **48**

Annex C (informative) **Qualitative method verification — Example** **50**

Annex D (informative) **Quantitative method verification — Example** **58**

Annex E (informative) **Validated alternative confirmation or typing method verification — Examples** **63**

Annex F (normative) **Protocol for the verification of non-validated reference methods in a single laboratory** **66**

[A1] Annex G (informative) **Validated identification method verification — Examples [A1]** **73**
