DIN EN 14663:2006-03 (E)

Foodstuffs - Determination of vitamin B6 (including its glycosylated forms) by HPLC

Contents

Page

Foreword 3

1 Scope 4

2 Normative references 4

3 Principle 4

4 Reagents 4

5 Apparatus 9

6 Procedure 9

7 Calculation 11

8 Precision 12

9 Test report 14

Annex A (informative) Precision data 15

Annex B (informative) Examples for suitable HPLC-conditions for the determination of vitamin B6 compounds 19

Annex C (informative) Examples for molar extinction coefficients 20

Annex D (informative) Figures 21

Bibliography 22

Figure Figure D.1 -- Standard substances and sample potato puree 21

Tables Table 1 -- Examples for molecular extinction coefficients of vitamin B6 compounds 7

Table A.1 -- Precision data for Semolina with milk, powder 15

Table A.2 -- Precision data for Potato puree,powder 16

Table A.3 -- Precision data for vegetables with ham (baby food) 17

Table A.4 -- Precision data for multi vitamin drink 18

Table B.1 -- Examples for suitable HPLC-conditions for the determination of vitamin B6 compounds 19

Table C.1 -- Examples for molar extinction coefficients (E) of vitamin B6 compounds [3], [4] 20
