## Cigarettes - Measurement of nicotine-free dry particulate matter, nicotine, water and carbon monoxide in cigarette smoke - Analysis of data from collaborative studies reporting relationships between repeatability, reproducibility and tolerances

---

<b>Contents</b>		<b>Page</b>
Foreword .....		iv
Introduction .....		v
<b>1</b>	<b>Scope .....</b>	<b>1</b>
<b>2</b>	<b>Statistical functions for repeatability (r), reproducibility (R) of yield measurements and compliance tolerances for declared smoke constituent yields .....</b>	<b>1</b>
2.1	Statistical functions for repeatability (r) and reproducibility (R) .....	1
2.2	A statistical model for compliance tolerances .....	2
<b>3</b>	<b>Sources of data .....</b>	<b>3</b>
3.1	International collaborative studies .....	3
3.2	UK Department of Health Cigarette Survey data .....	4
<b>4</b>	<b>Comparison of 2003 CORESTA Collaborative Study data with those previously reported ...</b>	<b>4</b>
4.1	General .....	4
4.2	Comparison of repeatability r <sub>20</sub> values from CCS-03 with other collaborative studies .....	4
4.3	Comparison of reproducibility R <sub>20</sub> values from CCS-03 with other collaborative studies ...	5
4.3.1	General .....	5
4.3.2	Relationship between reproducibility R <sub>20</sub> and smoke constituent yield .....	5
4.4	Comparison of R <sub>100</sub> reproducibility values from collaborative studies with measurement tolerances estimated from the UK Department of Health Cigarette Survey data .....	5
<b>5</b>	<b>Review of information relevant to setting a compliance tolerance for carbon monoxide .....</b>	<b>6</b>
5.1	General .....	6
5.2	Compliance data for current tolerances .....	6
5.3	Confidence intervals associated with yield measurements .....	6
5.4	Statistical models .....	7
5.5	Prediction of a tolerance for CO from the relative variability in their reproducibility values .....	8
<b>6</b>	<b>Conclusions .....</b>	<b>8</b>
<b>7</b>	<b>Recommendations .....</b>	<b>8</b>
<b>Annex A (informative) Background considerations on the choice of sampling procedures .....</b>		<b>31</b>
<b>Annex B (informative) The determination of carbon monoxide in cigarette smoke -- Problems in the evaluation of results .....</b>		<b>33</b>
<b>Annex C (informative) Proposals from the UK Tobacco Manufacturers Association for a practicable tolerance for verifying cigarette packet declarations of carbon monoxide (March, 2002) .....</b>		<b>41</b>
<b>Annex D (informative) Analysis of bias measurements from the UK Department of Health Cigarette Survey .....</b>		<b>59</b>
<b>Annex E (informative) ASIA COLLABORATIVE STUDY #11 2002/2003 .....</b>		<b>71</b>

<b>Annex F (informative) 2003 CORESTA Collaborative Study Report CORESTA study for the estimation of the repeatability and reproducibility of the measurement of nicotine-free particulate matter, nicotine and CO in smoke using the ISO smoking methods, September 2003 .....</b>	<b>86</b>
<b>Bibliography .....</b>	<b>146</b>
