Foreword 3

Introduction 4

1 Scope 6

2 Normative references 6

3 Terms and definitions 6

4 Sampling plans and quantitative data 7

5 Incremental sampling methods 10

6 Reduction of aggregate sample 25

7 Division into final samples 26

8 Practical arrangements for final (laboratory) samples 26

9 Sampling report 27

Annex A (normative) Test for bias in mechanical samplers 29

Annex B (informative) Examples of rotating sample dividers 32

Annex C (normative) Test for bias in a rotary divider 35

Annex D (informative) Examples of apparatus for sampling fluid fertilizers 36

Annex E (normative) Methods of mixing for fluid fertilizers 44
