## Characterization of pavement texture by use of surface profiles - Part 4: Spectral analysis of surface profiles

---

<b>Contents</b>		<b>Page</b>
Foreword .....		iv
Introduction .....		v
1	Scope .....	1
2	Normative references .....	1
3	Terms and definitions .....	2
4	Basic outline of methodologies of spatial frequency analysis .....	6
5	Sampling of surface profiles .....	8
5.1	Sampling of road sections .....	8
5.2	Measurement of laboratory samples .....	9
6	General principles and requirements .....	9
6.1	Requirements concerning profilometers .....	9
6.2	Conversion of spatial frequencies to temporal frequencies .....	9
6.3	Drop-outs .....	11
6.4	Anti-aliasing filtering .....	12
6.5	Digital sampling .....	12
7	Spectral analysis in constant-percentage bandwidth bands (octave- or one-third-octave bands) by analogue filtering (Method 1) .....	13
8	Spectral analysis in constant-percentage bandwidth bands (octave- or one-third-octave bands) by digital filtering (Method 2) .....	15
9	Spectral analysis in narrow constant bandwidth bands by means of Discrete (Fast) Fourier Transform methods (Method 3) .....	15
9.1	Overview of methodology .....	15
9.2	Slope and offset suppression .....	16
9.3	Windowing .....	16
9.4	Discrete Fourier Transform and Power Spectral Density .....	18
9.5	Wavelength resolution .....	19
10	Transformation of constant bandwidth spectral data to constant-percentage bandwidth spectral data .....	19
11	Uncertainty of analysis results .....	21
12	Reporting of analysis results .....	22
Annex A (normative) Uncertainty of spectral analysis results .....		23
Annex B (informative) Aliasing .....		28
Annex C (informative) Estimation of the deviation in energy within a frequency band caused by variations in speed .....		30
Annex D (informative) Compensation for speed variations during processing of the measured data .....		31

<b>Annex E (informative) Explanation of the relation between the wavelength resolution and the spatial frequency resolution .....</b>	<b>32</b>
<b>Annex F (informative) Spectral analysis and profile asymmetry .....</b>	<b>33</b>
<b>Bibliography .....</b>	<b>35</b>
