

ISO 13474:2009-06 (E)

Acoustics - Framework for calculating a distribution of sound exposure levels for impulsive sound events for the purposes of environmental noise assessment

| Contents | Page |
|--|-----------|
| Foreword | v |
| Introduction | vi |
| 1 Scope | 1 |
| 2 Normative references | 1 |
| 3 Terms and definitions | 2 |
| 4 Basic equations | 6 |
| 4.1 General | 6 |
| 4.2 Probability of occurrence | 6 |
| 4.3 Band sound exposure level | 7 |
| 4.4 Frequency-weighted sound exposure level | 8 |
| 4.5 Long-term average single-event sound exposure level | 8 |
| 4.6 Equivalent level from multiple events | 10 |
| 5 Calculation of a statistical distribution | 10 |
| 6 Calculation of attenuation | 14 |
| 6.1 General | 14 |
| 6.2 Geometric divergence | 14 |
| 6.3 Atmospheric absorption | 14 |
| 6.4 Insertion loss by screening objects | 15 |
| 6.5 Terrain shielding | 15 |
| 6.6 Contributions to excess attenuation | 16 |
| 6.6.1 General | 16 |
| 6.6.2 Refraction | 16 |
| 6.6.3 Ground reflection and absorption | 17 |
| 7 Classification | 19 |
| 7.1 General | 19 |
| 7.2 Classification of atmospheric absorption | 19 |
| 7.3 Classification of excess attenuation | 19 |
| 7.3.1 General | 19 |
| 7.3.2 Lookup table requirements | 20 |
| 7.3.3 Range-dependent sound speed profiles | 21 |
| 7.3.4 Directed sound speed profiles | 21 |
| 8 Probability of occurrence of sound speed profiles | 22 |
| 8.1 General | 22 |
| 8.2 Using direct measurements of wind and temperature profiles | 22 |
| 8.3 Similarity relationships for the atmospheric surface layer | 23 |
| 8.4 Using measurements of turbulent fluxes | 24 |
| 8.5 Using routinely gathered weather station data | 25 |
| 8.6 Using directly measured or calculated sound speed profiles as input | 26 |
| 9 The source | 26 |
| 9.1 General | 26 |
| 9.2 Demolition and muzzle blasts | 26 |

| | | |
|--|---|-----------|
| 9.2.1 | General | 26 |
| 9.2.2 | Source descriptors | 27 |
| 9.2.3 | Determination by measurement | 27 |
| 9.2.4 | Determination by estimation | 28 |
| 9.3 | Projectile sound | 28 |
| 9.3.1 | General | 28 |
| 9.3.2 | Flat trajectories | 28 |
| 9.3.3 | High-elevation trajectories and rocket trajectories | 28 |
| 10 | Uncertainties | 28 |
| Annex A (informative) Example of the estimation of the statistical distribution of single-event sound exposure levels | | 30 |
| Annex B (informative) Uncertainty | | 37 |
| Bibliography | | 40 |
