Acoustics - Noise from shooting ranges - Part 3: Guidelines for sound propagation calculations (ISO 17201-3:2010)

Contents		Page
Foreword		3
Introduction		4
1 Scope		5
2 Normative references		5
3 Terms and definitions		6
4 Source modelling		7
5 Propagation calculation		8
6 Conversion of sound exposure levels		13
7 Uncertainties		14
Annex A (normative) Benchmark cases for shooting sheds with baffles		15
Annex B (normative) Sophisticated modelling approaches		30
Annex C (informative) Modelling of shooting scenarios - examples of shooting ranges		39
Annex D (informative) Uncertainty		54
