Foreword v

Introduction vi

1 Scope 1

2 Normative references 1

3 Termsanddefinitions 1
3.1 Expression of levels 2
3.2 Time intervals 3
3.3 Ratings 4
3.4 Sound designations 4
3.5 Impulsive sound sources 6
3.6 Day, evening, night sound levels 6

4 Symbols 7

5 Descriptors for environmental noise(s) 8
5.1 Single events 8
5.1.1 Descriptors 8
5.1.2 Event duration 8
5.2 Repetitive single events 8
5.3 Continuous sound 9

6 Noise annoyance 9
6.1 Descriptors for community noise 9
6.2 Frequency weightings 9
6.3 Adjusted levels 9
6.3.1 Adjusted sound exposure levels 9
6.3.2 Adjusted equivalent continuous sound pressure level 10
6.4 Rating levels 10
6.4.1 One sound source 10
6.4.2 Combined sources 10
6.5 Composite whole-day rating levels 11

7 Noise limit requirements 11
7.1 General 11
7.2 Specifications 12
7.2.1 Noise descriptors 12
7.2.2 Relevant time intervals 12
7.2.3 Sound sources and their operating conditions 12
7.2.4 Locations 12
7.2.5 Propagation conditions 13
7.2.6 Uncertainties 13

8 Reporting assessments of environmental noise(s) and estimation of long-term community annoyance response 13
8.1 Estimation of long-term annoyance response of communities 13
8.2 Test report 13

Annex A (informative) Adjustments for sound source rating levels 15

Annex B (informative) High-energy impulse sounds 20

Annex C (informative) Sounds with strong low-frequency content 22

Annex D (informative) Relationships to estimate the percentage of a population highly annoyed and the 95 % prediction interval as a function of adjusted day-evening- night and day-night sound levels 24

Annex E (informative) Estimated prevalence of a population highly annoyed as a function of adjusted day-evening-night or day-night sound levels using the community tolerance level formulation 26

Annex F (informative) Estimated prevalence of a population highly annoyed as a function of adjusted day-evening-night or day-night sound level using a regression formulation 33

Annex G (informative) Annoyance caused by exposure to sound in multi-source environments 39

Annex H (informative) Theory-based approach to predict the growth of annoyance 41

Bibliography 45
