ISO 18405:2017-04 (E)

Underwater acoustics - Terminology

Contents

Page

Foreword iv

Introduction v

1 Scope 1

2 Normative references 1

3 Termsanddefinitions 1
3.1 General terms 1
3.1.1 General 1
3.1.2 Acoustical field quantities 2
3.1.3 Acoustical power quantities 5
3.1.4 Logarithmic frequency intervals 10
3.1.5 Other acoustical quantities 11
3.2 Levels used in underwater acoustics 13
3.2.1 Levels of acoustical power quantities 13
3.2.2 Levels of acoustical field quantities 16
3.3 Terms for properties of underwater sound sources 17
3.3.1 Source waveforms and factors 17
3.3.2 Source levels 21
3.4 Terms related to propagation and scattering of underwater sound 23
3.4.1 Propagation 23
3.4.2 Scattering 24
3.5 Terms for properties of underwater sound signals 27
3.5.1 Sound signals 27
3.6 Terms related to sonar equations 29
3.6.1 General 29
3.6.2 Sonar equations and sonar equation terms 31
3.7 Terms related to underwater bioacoustics 35
3.7.1 Auditory frequency weighting 35
3.7.2 Sound reception 38
3.7.3 Sound production 42

Annex A (informative) Alphabetical index 43
