

# DIN EN ISO 4869-2:2019-10 (E)

## Acoustics - Hearing protectors - Part 2: Estimation of effective A-weighted sound pressure levels when hearing protectors are worn (ISO 4869-2:20 18)

---

### Contents

	Page
European foreword.....	3
Foreword.....	4
Introduction.....	5
1 Scope.....	7
2 Normative references.....	7
3 Terms and definitions.....	7
4 Measurement of sound attenuation of hearing protectors.....	8
5 Calculation of the assumed protection value, $APV_{fx}$ , of a hearing protector for a selected protection performance.....	8
6 Octave-band method.....	9
7 <i>HML</i> method.....	10
7.1 General.....	10
7.2 Calculation of $H$ , $M$ and $L$ values.....	10
7.3 Application of <i>HML</i> method for estimation of the effective A-weighted sound pressure level.....	12
8 <i>SNR</i> method.....	12
8.1 General.....	12
8.2 Calculation of <i>SNR</i> values.....	12
8.3 Application of <i>SNR</i> method for estimation of the effective A-weighted sound pressure level.....	13
Annex A (informative) Example of the calculation of the assumed protection values, $APV_{fx}$ .....	15
Annex B (informative) Example of the calculation of $L'_{p,Ax}$ according to the octave-band method.....	16
Annex C (informative) Example of the calculation and use of $H$ , $M$ and $L$ values.....	17
C.1 Calculation of $H$ , $M$ and $L$ values for a particular hearing protector.....	17
C.2 Use of $H_{84}$ , $M_{84}$ and $L_{84}$ values to estimate $L'_{p,A84}$ for a particular hearing protector in a specific noise situation.....	19
Annex D (informative) Example of the calculation and use of <i>SNR</i> values.....	20
D.1 Calculation of the <i>SNR</i> value for a particular hearing protector.....	20
D.2 Use of the $SNR_{84}$ value to estimate $L'_{p,A84}$ for a particular hearing protector in a specific noise situation for which $L_{p,C}$ is known.....	20
D.3 Use of the $SNR_{84}$ value to estimate $L'_{p,A84}$ for a particular hearing protector in a specific noise situation in which the A-weighted sound pressure level has been measured and a reasonable estimate of $(L_{p,C} - L_{p,A})$ is available.....	21
Annex E (informative) Uncertainty of attenuation values and ratings.....	22
E.1 General.....	22
E.2 Example of uncertainty.....	22
Bibliography.....	24
