National foreword 3

National Annex NA (informative) Bibliography 4

Foreword 5

Introduction 6

1 Scope 7

2 Normative references 7

3 Termsanddefinitions 7

4 Specificationofinputsignalandinstrumentation 10

5 Method for stationary sounds 11
5.1 General 11
5.2 Description of the method 12
5.3 Calculation of loudness and loudness level 15

6 Method for time-varying sounds 18
6.1 General 18
6.2 Description of the method 19
6.3 Calculation algorithm 20
6.4 Guidance for determining the loudness of time-varying sounds 21

7 Reporting data 22

Annex A (normative) Numerical details and program code for the calculation of loudness of stationary and time-varying sounds (test implementation) 23

Annex B (normative) Test signals for the validation of implementation 51

Annex C (informative) Graphical user interface for the calculation of loudness of stationary and time-varying sounds 54

Annex D (informative) Guidance for determining the loudness when using head and torso simulator microphones 59

Annex E (informative) Uncertainty considerations 60
