

DIN EN ISO 10534-2:2024-01 (E)

Acoustics - Determination of acoustic properties in impedance tubes - Part 2: Two-microphone technique for normal sound absorption coefficient and normal surface impedance (ISO 10534-2:2023)

Contents		Page
European foreword		3
Foreword		4
1	Scope	5
2	Normative references	5
3	Terms, definitions and symbols	5
4	Principle	9
5	Test equipment	9
5.1	Construction of the impedance tube	9
5.2	Working frequency range	10
5.3	Length of the impedance tube	11
5.4	Microphones	11
5.5	Positions of the microphones	11
5.6	Acoustic centre of the microphone	12
5.7	Test sample holder	12
5.8	Signal processing equipment	13
5.9	Loudspeaker	13
5.10	Signal generator	13
5.11	Thermometer, barometer and relative humidity	13
6	Preliminary test and measurements	14
7	Test specimen mounting	15
8	Test procedure	16
8.1	Specification of the reference plane	16
8.2	Determination of the sound velocity, wavelength and characteristic impedance	16
8.3	Selection of the signal amplitude	17
8.4	Selection of the number of averages	17
8.5	Correction for microphone mismatch	17
8.5.1	General	17
8.5.2	Measurement repeated with the channels interchanged	17
8.5.3	Predetermined calibration factor	18
8.6	Determination of the transfer function between the two locations	19
8.6.1	General	19
8.6.2	Cross- and autospectra-based estimate	19
8.6.3	Frequency-domain deconvolution	20
8.6.4	Impulse-response based estimate	20
8.7	Determination of the reflection coefficient	21
8.8	Determination of the sound absorption coefficient	21
8.9	Determination of the specific acoustic impedance ratio	21
8.10	Determination of the specific acoustic admittance ratio	21
9	Precision	22
10	Test report	22
Annex A (normative)	Preliminary measurements	25
Annex B (normative)	Procedure for the one-microphone technique	27
Annex C (informative)	Theoretical background	28

Annex D (informative) Error sources	30
Annex E (informative) Estimation of diffuse sound absorption coefficient α_{st} of locally reacting absorbers from the results of this document	32
Annex F (informative) Estimation of intrinsic properties	33
Bibliography	35
