## Characterization of pavement texture by use of surface profiles - Part 4: One third octave band spectral analysis of surface profiles

---

| <b>Contents</b>   |   | <b>Page</b> |
|---|---|-------------|
| Foreword .....  |   | iv          |
| Introduction .....  |   | v           |
| 1   | Scope .....   | 1           |
| 2   | Normative references .....  | 1           |
| 3   | Terms and definitions .....   | 2           |
| 4   | Symbols and abbreviated terms .....   | 4           |
| 5   | Basic outline of methodologies of spatial frequency analysis .....  | 5           |
| 6   | Sampling of surface profiles .....  | 7           |
| 6.1   | Requirements concerning profilometers and data preparations .....   | 7           |
| 6.2   | Sampling of road sections .....   | 7           |
| 6.3   | Measurement of laboratory samples .....   | 7           |
| 6.4   | Texture profile levels (logarithmic scale) .....  | 8           |
| 6.5   | Anti-aliasing filtering .....   | 8           |
| 6.6   | Drop-out correction and interpolation .....   | 8           |
| 6.7   | Resampling to a constant spatial resolution .....   | 10          |
| 6.8   | Spike identification and reshaping the profile .....  | 10          |
| 7   | Spectral analysis in constant-percentage bandwidth bands (octave- or one-third-octave bands) by digital filtering ..... | 10          |
| 8   | Uncertainty of analysis results .....   | 11          |
| 9   | Reporting of analysis results .....   | 12          |
| Annex A (normative) Uncertainty of spectral analysis results .....                                  |   | 13          |
| Annex B (informative) Spectral analysis and profile asymmetry .....                                 |   | 18          |
| Annex C (informative) Spectral analysis by means of discrete (fast) Fourier transform methods ..... |   | 19          |
| Annex D (normative) Spike removal procedure .....   |   | 27          |
| Annex E (informative) Testing the calculation procedure .....                                       |   | 30          |
| Annex F (normative) Profile conditioning before filtering .....                                     |   | 32          |
| Bibliography .....  |   | 35          |
