DIN 45669-2:2025-02 (E)

Measurement of vibration immission - Part 2: Measuring method

Contents

Page

Foreword ... 4
1 Scope ... 5
2 Normative references ... 5
3 Terms and definitions ... 5
4 Measuring equipment ... 7
5 Measuring conditions ... 7
5.1 Points of measurement ... 7
5.1.1 General ... 7
5.1.2 Points of measurement on foundations ... 7
5.1.3 Points of measurement on upper storeys ... 7
5.1.4 Points of measurement on the ground ... 8
5.2 Directions of measurement ... 8
5.3 Mounting transducers ... 8
5.3.1 General ... 8
5.3.2 Mounting on hard surfaces ... 10
5.3.3 Mounting on soft surfaces ... 11
5.3.4 Mounting on the ground ... 13
6 Measurement procedure ... 18
6.1 Measurement time ... 18
6.2 Evaluation time and period ... 19
6.3 Verifying measuring equipment ... 19
6.4 Influence factors of vibration immission ... 19
6.4.1 General ... 19
6.4.2 Vibration sources ... 19
6.4.3 Vibration propagation ... 20
6.4.4 Measurement site conditions ... 20
7 Interferences ... 21
7.1 Possible sources of interference ... 21
7.2 Measures for reducing the effects of interferences ... 22
7.2.1 General ... 22
7.2.2 Measures for reducing s_1 interferences ... 22
7.2.3 Measures for reducing s_2 interferences ... 22
7.2.4 Measures for reducing s_3 interferences ... 23
8 Instrument errors and errors due to mounting ... 23
8.1 Errors of the transducer ... 23
8.2 Errors due to transducer mounting ... 23
8.2.1 General ... 23
8.2.2 Mounting on hard surfaces ... 23
8.2.3 Mounting on soft surfaces ... 24
8.2.4 Mounting on the ground ... 24
Annex A (informative) Example of the relative errors when mounting the transducer with a spiked mounting device ... 25
Bibliography ... 27

Figures

Figure 1 — Example of a mounting device for transducers **13**

Figure 2 — Examples of borehole transducers **18**

Figure 3 — Possible sources of interference **22**

Figure A.1 — Example of the relative deviations when coupling the transducer with a spiked mounting device as in Figure 1 a) compared to bolted mounting (soft carpeting, different types of mounting, vertical vibration excitation) **26**

Tables

Table 1 — Overview of mounting transducers on horizontal surfaces in buildings **9**

Table 2 — Overview of methods for mounting transducers on the ground **15**
