

ISO 17201-2:2025-07 (E)

Acoustics - Noise from shooting ranges - Part 2: Calculation of muzzle blast

Contents		Page
Foreword		iv
Introduction		v
1	Scope	1
2	Normative references	1
3	Terms and definitions	1
3.1	General	1
3.2	Directivity	3
3.3	Energy	3
3.4	Fraction	4
3.5	Projectile	5
4	Estimation model for source data of the muzzle blast	5
4.1	General	5
4.2	Estimation of chemical energy	5
4.3	Estimation of acoustic energy	6
4.4	Estimation of the Weber energy	6
4.5	Estimation of directivity	6
4.6	Estimation of the spectrum	6
5	Uncertainty of estimation	7
6	Report	8
Annex A (informative) Simple blast model for estimation of sound energy and its spectrum		9
Annex B (informative) Quality of input data		11
Annex C (informative) Comparison between measurements and prediction of muzzle blast		14
Bibliography		21
