

# DIN EN ISO 3095:2026-08 (E)

## Railway applications - Acoustics - Measurement of noise emitted by railbound vehicles (ISO 3095:2025, Corrected version 2026-05)

---

| Contents                                             | Page |
|------------------------------------------------------|------|
| 6.5 Measured quantities .....                        | 21   |
| 6.6 Test procedure .....                             | 21   |
| 6.6.1 General .....                                  | 21   |
| 6.6.2 Pass-by speeds .....                           | 21   |
| 6.6.3 Recording and measurement time intervals ..... | 21   |
| 6.7 Data processing .....                            | 24   |
| 6.7.1 Standard processing .....                      | 24   |
| 6.7.2 Additional processing .....                    | 24   |
| 7 Acceleration test from standstill .....            | 24   |
| 7.1 General .....                                    | 24   |
| 7.2 Environmental conditions .....                   | 25   |
| 7.2.1 Acoustical environment .....                   | 25   |
| 7.2.2 Meteorological conditions .....                | 25   |
| 7.2.3 Background sound pressure level .....          | 25   |
| 7.3 Track conditions .....                           | 25   |
| 7.4 Vehicle conditions .....                         | 26   |
| 7.4.1 General .....                                  | 26   |
| 7.4.2 Normal operating conditions .....              | 27   |
| 7.4.3 Occupancy and load .....                       | 27   |
| 7.5 Maximum level method .....                       | 27   |
| 7.5.1 Measurement positions .....                    | 27   |
| 7.5.2 Measured quantities .....                      | 29   |
| 7.5.3 Test procedure .....                           | 30   |
| 7.5.4 Data processing .....                          | 30   |
| 7.6 Averaged level method .....                      | 30   |
| 7.6.1 Measurement positions .....                    | 30   |
| 7.6.2 Measurement quantity .....                     | 31   |
| 7.6.3 Test procedure .....                           | 31   |
| 7.6.4 Data processing .....                          | 31   |
| 8 Braking test .....                                 | 32   |
| 8.1 General .....                                    | 32   |
| 8.2 Environmental conditions .....                   | 32   |
| 8.2.1 Acoustical environment .....                   | 32   |
| 8.2.2 Meteorological conditions .....                | 32   |
| 8.2.3 Background sound pressure level .....          | 32   |
| 8.3 Track conditions .....                           | 33   |
| 8.4 Vehicle conditions .....                         | 33   |
| 8.4.1 General .....                                  | 33   |
| 8.4.2 Normal operating conditions .....              | 34   |
| 8.4.3 Occupancy and load .....                       | 34   |
| 8.4.4 Braking modes .....                            | 34   |
| 8.5 Measurement positions .....                      | 34   |
| 8.6 Measurement quantity .....                       | 35   |
| 8.7 Test procedure .....                             | 35   |
| 8.8 Data processing .....                            | 35   |
| 8.8.1 Standard processing .....                      | 35   |
| 8.8.2 Additional processing .....                    | 36   |
| 9 Quality of the measurements .....                  | 36   |

|                                                                                                                     |                                        |    |
|---------------------------------------------------------------------------------------------------------------------|----------------------------------------|----|
| 9.1                                                                                                                 | General .....                          | 36 |
| 9.2                                                                                                                 | Deviations from the requirements ..... | 36 |
| 9.3                                                                                                                 | Measurement tolerances .....           | 36 |
| 9.4                                                                                                                 | Measurement spread .....               | 36 |
| 9.5                                                                                                                 | Measurement uncertainties .....        | 36 |
| 10                                                                                                                  | Test report .....                      | 37 |
| Annex A (normative) Method to characterize the impulsive character of the noise .....                               |                                        | 38 |
| Annex B (normative) Tests at constant speed -- Special cases .....                                                  |                                        | 41 |
| Annex C (informative)Trackinfluenceonthepass-bytestresult .....                                                     |                                        | 45 |
| Annex D (normative) Method to assess acceptable small deviations from acoustic rail roughness<br>requirements ..... |                                        | 61 |
| Annex E (informative) Guidance for urban rail vehicles measurement .....                                            |                                        | 63 |
| Annex F (informative) Additional measurements .....                                                                 |                                        | 65 |
| Annex G (informative) Quantification of measurement uncertainties according to ISO/ IECGuide98-<br>3:2008[1] .....  |                                        | 71 |
| Annex H (informative) Noise from parked trains .....                                                                |                                        | 76 |
| Annex I (informative) Data processing for tonal noise assessment at standstill .....                                |                                        | 86 |
| Bibliography .....                                                                                                  |                                        | 89 |
