ISO 14839-2:2004-09 (E)

Mechanical vibration - Vibration of rotating machinery equipped with active magnetic bearings - Part 2: Evaluation of vibration

Contents

Page

1 Scope 1

2 Normative references 1

3 Measurement and evaluation procedures 1

4 Evaluation criteria 6

Annex A (informative) Case study on an LP centrifugal compressor equipped with active magnetic bearings (AMBs) 8

Annex B (informative) Case study on current evaluation 14

Annex C (informative) Voltage saturation 17
