Foreword 2

Endorsement notice 2

Introduction 4

1 Scope 5

2 Normative references 5

3 Terms, definitions and abbreviated terms 5

4 Designations 6

5 Theory 6

6 Measurement of the impulse response 11

7 Measurement of the frequency response function 18

8 Precision 18

9 Test report 19

Annex A (normative) Maximum length sequence method 20

Annex B (normative) Swept-sine method 24
