## Vacuum technology - Standard methods for measuring vacuum-pump performance - General description

---

| <b>Contents</b>                                                    |                                                                               | <b>Page</b> |
|--------------------------------------------------------------------|-------------------------------------------------------------------------------|-------------|
| Foreword .....                                                     |                                                                               | iv          |
| Introduction .....                                                 |                                                                               | v           |
| 1                                                                  | Scope .....                                                                   | 1           |
| 2                                                                  | Normative references .....                                                    | 1           |
| 3                                                                  | Terms and definitions .....                                                   | 2           |
| 4                                                                  | Symbols and abbreviated terms .....                                           | 3           |
| 5                                                                  | Test Methods .....                                                            | 4           |
| 5.1                                                                | Volume flow rate (pumping speed) measurement with the throughput method ..... | 4           |
| 5.2                                                                | Volume flow rate (pumping speed) measurement with the orifice method .....    | 8           |
| 5.3                                                                | Volume flow rate (pumping speed) measurement with the pump-down method .....  | 13          |
| 5.4                                                                | Measurement of the base pressure .....                                        | 18          |
| 5.5                                                                | Measurement of the compression ratio and the critical backing pressure .....  | 19          |
| Annex A (informative) Mean free path of some important gases ..... |                                                                               | 23          |
| Annex B (informative) Measuring uncertainties .....                |                                                                               | 24          |
| Bibliography .....                                                 |                                                                               | 27          |
