Foreword iv

Introduction v

1 Scope 1

2 Normative references 1

3 Terms and definitions 1

4 Symbols 2

5 General requirements related to O-ring housings 2

6 Types of anti-extrusion (back-up) rings 3
6.1 Spiral type, T1 3
6.2 Angle cut type, T2 5
6.3 Solid type, T3 5
6.4 Angle cut concave type, T4 6
6.5 Solid concave type, T5 7

7 Positioning of anti-extrusion rings in housings 8

8 Anti-extrusion ring designation code and materials 8
8.1 Designation code 8
8.2 Materials 9

9 Dimensions and tolerances 9
9.1 Axial and radial widths of anti-extrusion rings 9
9.2 Outside diameters of anti-extrusion rings for piston sealing applications 10
9.3 Inside diameters of anti-extrusion rings for rod sealing applications 11

10 Identification statement (reference to this part of ISO 3601) 11
