DIN EN 13001-2:2010-02 (E)

Crane safety - General design - Part 2: Load effects (includes Amendment A3:2009)

Contents

Page

Foreword 3

Introduction 4

1 Scope 4

2 Normative references 5

3 Terms, definitions, symbols and abbreviations 5
3.1 Terms and definitions 5
3.2 Symbols and abbreviations 5

4 Safety requirements and/or measures 10
4.1 General 10
4.2 Loads 10
4.2.1 General 10
4.2.2 Regular loads 11
4.2.3 Occasional loads 17
4.2.4 Exceptional loads 24
4.2.5 Loads on means provided for access 30
4.3 Load combinations 30
4.3.1 General 30
4.3.2 High risk applications 30
4.3.3 !!!!Mass distribution classes MDC1 and MDC2"""" 31
4.3.4 !!!!Partial safety factors for the mass of the crane"""" 31
4.3.5 Partial safety factors to be applied to loads caused by displacements 32
4.3.6 Survey of load combinations 33
4.3.7 Partial safety factors for the proof of rigid body stability 37

Annex A (normative) Aerodynamic coefficients 40

A.1 General 40
A.2 Individual members 43
A.3 Plane and spatial lattice structure members 47
A.4 Structural members in multiple arrangement 51

Annex B (informative) Selection of a suitable set of crane standards for a given application 54

Annex ZA (informative) Relationship between this European Standard and the Essential Requirements of EU Directive 98/37/EC 55

Annex ZB (informative) ####Relationship between this European Standard and the Essential Requirements of EU Directive 2006/42/EC$$$$ 56
