Foreword 3

Introduction 4

1 Scope 5

2 Normative references 5

3 Terms and definitions 6

4 Description of machinery family 8

5 Emission sound pressure level determination 8
5.1 Selection of measurement method 8
5.2 Selection of relevant work station(s) and other specified positions 8
5.3 Selection of measuring points for very large machines 9
5.4 Measurement uncertainties 9

6 Sound power level determination 9
6.1 Selection of measurement method 9
6.2 Method for very large machines 10
6.3 Measurement uncertainty 10

7 Installation and mounting conditions 10

8 Operating conditions 10

9 Information to be recorded 11

10 Information to be reported 11

11 Declaration and verification of noise emission values 12

Annex A (normative) List of surface treatment machines covered by this noise test code and further requirements 14

Annex B (normative) Additional requirements for open-fronted spray booths and enclosed spray booths 20

Annex C (informative) Example for the determination of the emission values for a machine without a defined work station 23

Annex ZA (informative) Relationship between this European Standard and the Essential Requirements of EU directive 98/37/EC 29

Annex ZB (informative) !!!!Relationship between this European Standard and the Essential Requirements of EU Directive 2006/42/EC""""" 30
