Foreword	3
Introduction	4
1 Scope	5
2 Normative references	5
3 Terms and definitions	6
4 Description of machinery family	8
5 Emission sound pressure level determination	8
5.1 Selection of measurement method	8
5.2 Selection of relevant work station(s) and other specified positions	8
5.3 Selection of measuring points for very large machines	9
5.4 Measurement uncertainties	9
6 Sound power level determination	9
6.1 Selection of measurement method	9
6.2 Method for very large machines	10
6.3 Measurement uncertainty	10
7 Installation and mounting conditions	10
8 Operating conditions	10
9 Information to be recorded	11
10 Information to be reported	11
11 Declaration and verification of noise emission values	12
Annex A (normative) List of surface treatment machines covered by this noise test code and further requirements	14
Annex B (normative) Additional requirements for open-fronted spray booths and enclosed spray booths	20
Annex C (informative) Example for the determination of the emission values for a machine without a defined work station	23
Annex ZA (informative) Relationship between this European Standard and the Essential Requirements of EU directive 98/37/EC	29
Annex ZB (informative) Relationship between this European Standard and the Essential Requirements of EU Directive 2006/42/EC	30
Bibliography	31
