

# DIN EN 14462:2010-02 (E)

Surface treatment equipment - Noise test code for surface treatment equipment including its ancillary handling equipment - Accuracy grades 2 and 3 (includes Amendment A1:2009)

---

<b>Contents</b>	<b>Page</b>
Foreword .....	3
Introduction .....	4
1 Scope .....	5
2 Normative references .....	5
3 Terms and definitions .....	6
4 Description of machinery family .....	8
5 Emission sound pressure level determination .....	8
5.1 Selection of measurement method .....	8
5.2 Selection of relevant work station(s) and other specified positions .....	8
5.3 Selection of measuring points for very large machines .....	9
5.4 Measurement uncertainties .....	9
6 Sound power level determination .....	9
6.1 Selection of measurement method .....	9
6.2 Method for very large machines .....	10
6.3 Measurement uncertainty .....	10
7 Installation and mounting conditions .....	10
8 Operating conditions .....	10
9 Information to be recorded .....	11
10 Information to be reported .....	11
11 Declaration and verification of noise emission values .....	12
Annex A (normative) List of surface treatment machines covered by this noise test code and further requirements .....	14
Annex B (normative) Additional requirements for open-fronted spray booths and enclosed spray booths .....	20
Annex C (informative) Example for the determination of the emission values for a machine without a defined work station .....	23
Annex ZA (informative) Relationship between this European Standard and the Essential Requirements of EU directive 98/37/EC .....	29
Annex ZB (informative) Relationship between this European Standard and the Essential Requirements of EU Directive 2006/42/EC .....	30
Bibliography .....	31
