ISO 12643-1:2009-12 (E)

Graphic technology - Safety requirements for graphic technology equipment and systems - Part 1: General requirements

Contents

Page

Foreword v

Introduction vi

1 Scope 1

2 Normative references 2

3 Terms and definitions 4

4 Conformity with this part of ISO 12643 11

5 Risk assessment 11

6 Guarding of significant hazards 12
6.1 General 12
6.2 Guards 12
6.3 In-running (in-going) nips 16
6.4 Guarding in-running nips 17
6.5 Interlocks 20
6.6 Hold-to-run controls 23
6.7 Other safeguarding measures 24
6.8 Guarding reel unwinding, rewinding and transport devices 25
6.9 Threading of web material 28
6.10 Feeding units, delivery units (pile lifting and lowering devices) 28

7 Requirements for protection against other hazards 33
7.1 General 33
7.2 Fire and explosion 33
7.3 Electrical equipment 34
7.4 Working platforms, access stairs, passageways and raised workplaces 36
7.5 Stability 39
7.6 High contact temperatures 40
7.7 Noise 41
7.8 Radiation hazards 41
7.9 Stationary knives 42
7.10 Rotary tools 42
7.11 Transport and storage of hazardous tools 42
7.12 Protruding machine parts 42
7.13 Handwheels and cranks 42
7.14 Routine handling of heavy machine parts 43
7.15 Oxidizers, incinerators or thermal cleaning plants 43
7.16 Protection against crushing and shearing hazards 43
7.17 Contact with hazardous substances 44

8 Release from hazardous situation 45

9 Control zones 45
9.1 General 45
9.2 Purpose of zone configuration 45
9.3 Motion-control stations in control zones 45

10 Controls ... 46
10.1 General ... 46
10.2 Manual control devices ... 46
10.3 Initiating machine motion ... 54
10.4 Hold-to-run controls ... 54
10.5 Two-hand controls ... 55
10.6 Electro-sensitive protective devices ... 55
10.7 Pressure-sensitive mats, pressure-sensitive bumpers, trip devices ... 55
10.8 Braking devices and clutches ... 56
11 Control stations ... 57
11.1 Motion-control stations ... 57
11.2 Remote access ... 58
12 Control systems ... 61
12.1 Hydraulic, pneumatic, electric and electronic control systems ... 61
12.2 Electronic adjustable speed drives ... 62
12.3 Cut-off of main energy source ... 62
12.4 Residual-pile monitoring systems ... 62
12.5 Unobserved unguarded hazard zones ... 63
12.6 Cableless controls ... 63
12.7 Additional requirements for hand-fed machines ... 63
13 Ergonomics and labelling of indicators and actuators ... 64
14 Signals and warning devices ... 64
14.1 General ... 64
14.2 Audible warning system ... 64
14.3 Area-light warning system ... 67
15 Safety signs and labels ... 67
15.1 General ... 67
15.2 Specific requirements for machine markings ... 68
16 Contents of instruction handbook ... 68
16.1 General ... 68
16.2 Machines using flammable liquids ... 69
16.3 Machines with cutting knives ... 69
16.4 Handling heavy machine parts ... 69
16.5 Machines with automatic paper loading ... 70
16.6 Residual risks using ESPDs ... 70
16.7 Pile turners and reel turners ... 70
16.8 Pile carriers ... 70
16.9 Residual risk for hold-to-run speeds of above 10 m/min under two-hand control ... 70
16.10 Use of stroboscopes ... 70

Annex A (informative) Risk analysis relating to the pitch angle of access stairs ... 71

Annex B (informative) Noise ... 73

Annex C (normative) Area-light warning system ... 75

Annex D (informative) Example layout of instruction handbooks ... 77

Bibliography ... 79
