Brewhouse plants - Minimum specifications

Contents		Page
Foreword		3
1	Scope	4
2	Normative references	4
3	Terms and definitions	4
4	Minimum specifications for brewhouse plants	6
5	Project workflow for brewhouse plants	6
5.1	Planning	6
5.2	Delivery	6
5.3	Assembly	6
5.4	Commissioning	6
5.5	Employee training	6
5.6	Start of production	7
5.7	Acceptance test	7
5.8	Acceptance certificate	7
5.9	Acceptance	7
6	Performance and evaluation of the acceptance test	7
6.1	General information	7
6.2	Notes regarding the acceptance test	7
6.3	Results of the acceptance test	8
6.4	Internal acceptance	8
6.5	External acceptance	8
6.6	Assessment of the analysed values	8
6.7	Impairment of the acceptance test due to external circumstances	9
6.8	Costs of the acceptance test	9
7	Assessment of the extract preparation	9
Annex A (normative) Form		10
A.1	Local basic data at the limit of delivery	10
A.2	General design data	12
A.3	Production processes	13
A.4	Special specifications for control brews	14
A.5	Specifications for raw materials	16
A.6	Analytical investigations (standard values for the use of 100 % barley malt)	17
A.7	Machinery and process engineering specifications	21
A.8	Specifications for the thermal insulation of brewing vessels	29
Annex B (normative)		30
Bibliography		31
