

# DIN EN 12629-6:2011-02 (E)

Machines for the manufacture of constructional products from concrete and calcium-silicate - Safety - Part 6: Stationary and mobile equipment for the manufacture of precast reinforced products (includes Amendment A1:2010)

---

<b>Contents</b>		<b>Page</b>
Foreword .....		3
Introduction .....		4
1 Scope .....		5
2 Normative references .....		6
3 Terms and definitions .....		7
4 !!!List of significant hazards!!!! .....		9
5 !!!Safety requirements and/or protective measures!!!! .....		17
5.1 General .....		17
5.2 !!!Layout - Circulation - Means of access!!!! .....		17
5.3 !!!Control stations (see 4.11.8 of EN ISO 12100-2:2003 and 5.3.4, 5.3.5 of "" .....		18
5.4 Emergency stops .....		18
5.5 Operating mode .....		18
5.6 Module A: Manufacturing .....		19
5.7 Module B: storage-hardening .....		19
5.8 Module C: Palletising and packaging of final products and defective products disposal station (see also 5.2 of !!!EN 12629-1:2000+A1:2010!!!!) .....		20
5.9 Noise .....		21
5.10 Summary of the safety measures given in relation to the significant hazards listed in Clause 4 .....		21
6 !!!Verification of safety requirements and/or protective measures!!!! .....		25
7 Information for use .....		26
7.1 General .....		26
7.2 Instruction handbook .....		27
7.3 Marking .....		28
Annex A (informative) Manufacturing process on machines with or without turnover .....		29
Annex B (informative) Terminology and hazard zones relative to the various types of machines .....		30
Annex ZA (informative) !!!Relationship between this European Standard and the Essential Requirements of EU Directive 2006/42/EC!!!! .....		34
Bibliography .....		35
