

DIN EN 12629-6:2011-02 (E)

Machines for the manufacture of constructional products from concrete and calcium-silicate - Safety - Part 6: Stationary and mobile equipment for the manufacture of precast reinforced products (includes Amendment A1:2010)

Contents		Page
Foreword		3
Introduction		4
1 Scope		5
2 Normative references		6
3 Terms and definitions		7
4 !!!List of significant hazards!!!!		9
5 !!!Safety requirements and/or protective measures!!!!		17
5.1 General		17
5.2 !!!Layout - Circulation - Means of access!!!!		17
5.3 !!!Control stations (see 4.11.8 of EN ISO 12100-2:2003 and 5.3.4, 5.3.5 of ""		18
5.4 Emergency stops		18
5.5 Operating mode		18
5.6 Module A: Manufacturing		19
5.7 Module B: storage-hardening		19
5.8 Module C: Palletising and packaging of final products and defective products disposal station (see also 5.2 of !!!EN 12629-1:2000+A1:2010!!!!)		20
5.9 Noise		21
5.10 Summary of the safety measures given in relation to the significant hazards listed in Clause 4		21
6 !!!Verification of safety requirements and/or protective measures!!!!		25
7 Information for use		26
7.1 General		26
7.2 Instruction handbook		27
7.3 Marking		28
Annex A (informative) Manufacturing process on machines with or without turnover		29
Annex B (informative) Terminology and hazard zones relative to the various types of machines		30
Annex ZA (informative) !!!Relationship between this European Standard and the Essential Requirements of EU Directive 2006/42/EC!!!!		34
Bibliography		35
