

DIN EN 12629-6:2011-02 (E)

Machines for the manufacture of constructional products from concrete and calcium-silicate - Safety - Part 6: Stationary and mobile equipment for the manufacture of precast reinforced products (includes Amendment A1:2010)

Contents		Page
Foreword		3
Introduction		4
1	Scope	5
2	Normative references	6
3	Terms and definitions	7
4	!!!!List of significant hazards""""	9
5	!!!!Safety requirements and/or protective measures""""	17
5.1	General	17
5.2	!!!!Layout - Circulation - Means of access""""	17
5.3	!!!!Control stations (see 4.11.8 of EN ISO 12100-2:2003 and 5.3.4, 5.3.5 of ""	18
5.4	Emergency stops	18
5.5	Operating mode	18
5.6	Module A: Manufacturing	19
5.7	Module B: storage-hardening	19
5.8	Module C: Palletising and packaging of final products and defective products disposal station (see also 5.2 of !!!!EN 12629-1:2000+A1:2010""""")	20
5.9	Noise	21
5.10	Summary of the safety measures given in relation to the significant hazards listed in Clause 4	21
6	!!!!Verification of safety requirements and/or protective measures""""	25
7	Information for use	26
7.1	General	26
7.2	Instruction handbook	27
7.3	Marking	28
Annex A (informative) Manufacturing process on machines with or without turnover		29
Annex B (informative) Terminology and hazard zones relative to the various types of machines		30
Annex ZA (informative) !!!!Relationship between this European Standard and the Essential Requirements of EU Directive 2006/42/EC""""		34
Bibliography		35
