DIN EN ISO 11354-1:2012-04 (E)

Advanced automation technolog ies and their applications - Requirements for establishing manufacturing enterprise process interoperability - Part 1: Framework for enterprise interoperability (ISO 11354-1:2011)

Contents

Page

Foreword 3

Introduction 4

1 Scope 5

2 Terms and definitions 5

3 Abbreviated terms 6

4 Conformity with this part of ISO 11354 7

5 Viewpoints addressed by the enterprise interoperability framework 7
5.1 General framework requirements 7
5.2 Interoperability concern viewpoint 8
5.3 Interoperability barrier viewpoint 11
5.4 Interoperability approach viewpoint 13
5.5 Example of relationships between interoperability viewpoints 15
5.6 Representation of interoperability viewpoints 15

6 Framework for enterprise interoperability 16
6.1 Framework as a structuring mechanism 16
6.2 Interoperability concerns and interoperability barriers dimensions 16
6.3 Interoperability approaches dimension 18
6.4 Dimensions of the FEI 18
6.5 Supplementary dimensions for interoperability 20
6.6 Example of using the FEI 22

Annex A (informative) Mapping of existing interoperability frameworks to this part of ISO 11354 24

Annex B (informative) Example of use of FEI to identify and categorize interoperability barriers, knowledge and solutions 28

Annex C (informative) Guideline for using the FEI in an interoperability engineering project 33

Bibliography 37
