|--|--|-------------|
| Foreword .....   |  | iv          |
| Introduction .....   |  | v           |
| 1  | Scope .....  | 1           |
| 2  | Normative references .....                             | 1           |
| 3  | Terms and definitions .....                            | 2           |
| 4  | Principle .....  | 2           |
| 5  | Test filter .....                                      | 3           |
| 6  | Test apparatus .....                                   | 3           |
| 6.1  | Set-up of the test apparatus .....                     | 3           |
| 6.2  | Test duct .....  | 6           |
| 6.3  | Scanning assembly .....                                | 7           |
| 6.4  | Aerosol generation and measurement techniques .....    | 8           |
| 7  | Test air .....   | 9           |
| 8  | Procedure .....  | 10          |
| 8.1  | General .....  | 10          |
| 8.2  | Preparatory checks .....                               | 10          |
| 8.3  | Starting up the aerosol generator .....                | 11          |
| 8.4  | Preparing the test filter .....                        | 11          |
| 8.5  | Testing .....  | 11          |
| 9  | Test report .....                                      | 12          |
| 10   | Maintenance and inspection of the test apparatus ..... | 13          |
| Annex A (normative) Oil thread leak test .....                           |  | 15          |
| Annex B (normative) Aerosol photometer filter scan test method .....     |  | 16          |
| Annex C (normative) Determining the test parameters .....                |  | 20          |
| Annex D (informative) Example of an application with evaluation .....    |  | 28          |
| Annex E (informative) Leak test with solid PSL aerosol .....             |  | 31          |
| Annex F (informative) 0,3 m to 0,5 m particle efficiency leak test ..... |  | 34          |
| Annex G (informative) Calculation of aerosol challenge .....             |  | 36          |
| Bibliography .....   |  | 38          |
