

# DIN EN 13951:2012-08 (E)

## Liquid pumps - Safety requirements - Agrifoodstuffs equipment; Design rules to ensure hygiene in use

---

<b>Contents</b>		<b>Page</b>
Foreword .....		4
Introduction .....		5
1	Scope .....	5
2	Normative references .....	6
3	Terms and definitions .....	6
4	List of hazards .....	9
5	Hygiene: safety requirements and/or measures .....	12
5.1	General .....	12
5.2	Materials .....	12
5.2.1	Common requirements .....	12
5.2.2	Food areas .....	12
5.2.3	Non-food areas .....	13
5.3	Design - Food areas .....	14
5.3.1	General design criteria .....	14
5.3.2	Avoidance of product retention .....	14
5.3.3	Cleanability .....	14
5.3.4	Sterilization .....	15
5.3.5	Surface texture .....	16
5.3.6	Permanent and dismantlable joints - General criteria .....	16
5.3.7	Process flow obstructions and intrusions .....	16
5.3.8	Product contact bearings .....	16
5.3.9	Shaft seals .....	16
5.3.10	Fasteners .....	17
5.3.11	Access and drainage ports .....	17
5.3.12	Sensors and sensor connections .....	17
5.4	Design - Non-food areas .....	17
5.4.1	General criteria .....	17
5.4.2	Bearings .....	18
5.4.3	Quick-release fasteners .....	18
5.5	Auxiliary liquids, barriers and lubricants .....	18
5.6	Guards and shrouds .....	18
5.7	Legs .....	18
6	Verification of hygiene measures .....	18
6.1	General .....	18
6.2	Inspection of documentation .....	19
6.3	Inspection of the assembled pump or pump unit .....	19
6.4	Materials .....	19
6.5	Level of cleanability .....	19
6.5.1	Cleanability levels 1 and 2 .....	19
6.5.2	Cleanability level 3 .....	19
6.5.3	Cleanability level 4 .....	20
6.6	Surface roughness test .....	20
7	Information for use .....	20

7.1	General .....	20
7.2	Instruction for use - Instruction handbook .....	20
Annex A (informative) Materials in contact with foodstuffs (EU regulations) .....		21
A.1	Metallic materials in contact with foodstuffs .....	21
A.2	Elastomeric materials in contact with foodstuffs .....	21
A.3	Plastic materials in contact with foodstuffs .....	21
Annex B (informative) Surface roughness .....		22
Annex C (informative) Design practices .....		23
Annex D (informative) Hygienic risk associated with types of pump inlet and outlet connections ....		25
D.1	General .....	25
D.2	Hazards sources .....	25
D.3	Criteria to be taken into account .....	25
Annex E (informative) Hygienic risk linked to the choice of shaft sealing system and to the characteristics of the pumped product .....		27
Annex ZA (informative) Relationship between this European Standard and the Essential Requirements of EU Directive 2006/42/EC .....		28
Bibliography .....		29
