

DIN EN 1034-27:2012-12 (E)

Safety of machinery - Safety requirements for the design and construction of paper making and finishing machines - Part 27: Roll handling systems

Contents		Page
Foreword		4
Introduction		5
1	Scope	6
2	Normative references	6
3	Terms and definitions	8
4	List of significant hazards	10
5	Safety requirements and/or measures	11
5.1	General	11
5.2	Handling systems with rolling rolls, roll kicker, lowering and lifting cradle, roll stopper	14
5.3	Conveyors	15
5.4	Crossing of passage ways and conveyors	17
5.5	Conveyors passing through fire resistant doors	18
5.6	Transfer carriages, upenders, horizontal transfer devices, vertical transfer devices, handling devices for narrow rolls	18
5.7	Vertical conveyor	19
5.8	Rotating device with carrying rolls	20
5.9	Transfer points for industrial trucks	20
5.10	Interfaces/transfer points to adjacent conveying systems, the delivering machine and the receiving machine	21
5.11	Emergency stop device	21
5.12	Devices for make-ready and maintenance	21
5.13	Noise	22
6	Verification of compliance with safety requirements and/or measures	22
7	Information for use	22
7.1	General	22
7.2	Instruction handbook	23
7.3	Marking	23
Annex A (informative) Figures		24
Annex B (informative) Application of electro-sensitive protective equipment (ESPE) on roll loading (entry) and unloading (exit) areas of paper finishing machines and roll handling systems		26
B.1	Muting	26
B.2	Partial blanking - Automatic selection of active detection fields	28
Annex C (informative) Trilingual index of terms		30
Annex ZA (informative) Relationship between this European Standard and the Essential Requirements of EU Directive 2006/42/EC		31
Bibliography		32

Table 1 -- List of significant hazards	10
Table 2 -- Requirements from EN 1034-1:2000+A1:2010 and related B standards	11
Table 3 -- List of safety functions, Performance Level und Safety Integrity Level	13
Table 4 -- Verification of compliance with safety requirements and/or measures	22
