Foreword iv

Introduction v

1 Scope 1

2 Normative references 2

3 Terms and definitions 2

4 Symbols and units 2

5 Test installation 2
5.1 Test circuit for discharge test 3
5.2 Test circuit for charge test 3
5.3 General requirements 4
5.4 Requirements for the tank (item 4) 5
5.5 Special requirements 7

6 Test procedures 8
6.1 Test conditions 8
6.2 Measuring procedures 9
6.3 Calculation of characteristics 12

7 Presentation of test results 16

Annex A (informative) Evaluation of measurement uncertainty 18

Annex B (normative) Test method to determine and calibrate the volume of an isothermal tank. 24

Annex C (informative) Isothermal tank stuffing 30

Annex D (informative) Test method to determine isothermal performance 33

Annex E (informative) Equations for calculation of flow-rate characteristics 36

Annex F (informative) Procedures for calculating critical back-pressure ratio, b, and subsonic index, m, by the least-square method using the Solver function in Microsoft Excel 39
