## Robots and robotic devices - Safety requirements for personal care robots

---

| <b>Contents</b>    |   | <b>Page</b> |
|--------------------|---|-------------|
| Foreword .....     |   | v           |
| Introduction ..... |   | vi          |
| 1                  | Scope .....   | 1           |
| 2                  | Normative references .....                                      | 2           |
| 3                  | Terms and definitions .....                                     | 3           |
| 4                  | Risk assessment .....   | 9           |
| 4.1                | General .....   | 9           |
| 4.2                | Hazard identification .....                                     | 9           |
| 4.3                | Risk estimation .....   | 9           |
| 5                  | Safety requirements and protective measures .....               | 10          |
| 5.1                | General .....   | 10          |
| 5.2                | Hazards related to charging battery .....                       | 11          |
| 5.3                | Hazards due to energy storage and supply .....                  | 12          |
| 5.4                | Robot start-up and restart of regular operation .....           | 14          |
| 5.5                | Electrostatic potential .....                                   | 15          |
| 5.6                | Hazards due to robot shape .....                                | 16          |
| 5.7                | Hazards due to emissions .....                                  | 17          |
| 5.8                | Hazards due to electromagnetic interference .....               | 21          |
| 5.9                | Hazards due to stress, posture and usage .....                  | 22          |
| 5.10               | Hazards due to robot motion .....                               | 23          |
| 5.11               | Hazards due to insufficient durability .....                    | 31          |
| 5.12               | Hazards due to incorrect autonomous decisions and actions ..... | 33          |
| 5.13               | Hazards due to contact with moving components .....             | 34          |
| 5.14               | Hazards due to lack of awareness of robots by humans .....      | 35          |
| 5.15               | Hazardous environmental conditions .....                        | 35          |
| 5.16               | Hazards due to localization and navigation errors .....         | 37          |
| 6                  | Safety-related control system requirements .....                | 38          |
| 6.1                | Required safety performance .....                               | 38          |
| 6.2                | Robot stopping .....  | 40          |
| 6.3                | Limits to operational spaces .....                              | 43          |
| 6.4                | Safety-related speed control .....                              | 44          |
| 6.5                | Safety-related environmental sensing .....                      | 44          |
| 6.6                | Stability control .....   | 46          |
| 6.7                | Safety-related force control .....                              | 47          |
| 6.8                | Singularity protection .....                                    | 47          |
| 6.9                | Design of user interface .....                                  | 48          |
| 6.10               | Operational modes .....   | 49          |
| 6.11               | Manual control devices .....                                    | 51          |
| 7                  | Verification and validation .....                               | 52          |
| 8                  | Information for use .....                                       | 52          |
| 8.1                | General .....   | 52          |
| 8.2                | Markings or indications .....                                   | 53          |
| 8.3                | User manual .....   | 55          |

|            |  |           |
|------------|--|-----------|
| <b>8.4</b> | <b>Service manual .....</b>  | <b>56</b> |
|            | <b>Annex A (informative) List of significant hazards for personal care robots .....</b>    | <b>58</b> |
|            | <b>Annex B (informative) Examples of operational spaces for personal care robots .....</b> | <b>66</b> |
|            | <b>Annex C (informative) Example of the implementation of a safeguarded space .....</b>    | <b>69</b> |
|            | <b>Annex D (informative) Examples of functional tasks of personal care robots .....</b>    | <b>72</b> |
|            | <b>Annex E (informative) Examples of markings for personal care robots .....</b>           | <b>75</b> |
|            | <b>Bibliography .....</b>  | <b>77</b> |
