Foreword iv

Introduction vi

1 Scope 1

2 Normative references 1

3 Termsanddefinitions 1

4 General description 1

5 Technical requirements 2
5.1 Message frame format 2
5.2 Protocol data unit (PDU) 8
5.3 Protocol data unit (PDU) formats 10
5.4 Message types 13
5.5 Message priority 24
5.6 Bus access 24
5.7 Contention-based arbitration 24
5.8 Error detection 24
5.9 Assignment process for SA and PGN 25
5.10 Transport protocol functions 27
5.11 Extended transport protocol functions 38
5.12 PDU processing requirements 45
5.13 Application notes 46

Annex B (informative) Transport protocol transfer sequences --Examples of connection mode data transfer 50

Annex C (informative) Communication mode examples 58

Annex D (informative) Network Bandwidth Utilization 60
