Foreword 3

Introduction 4

1 Scope 6

2 Normative references 6

3 Terms and definitions 7

4 Test set-up procedure 11
4.1 General 11
4.2 Radiated and conducted radio frequency emissions 11
4.3 Voltage fluctuation and flicker 11
4.4 Mains supply harmonics 11

5 Applicability of tests 11

6 Emission limits 12
6.1 Enclosure ports (radiative) 12
6.2 AC mains ports (conductive) 12
6.3 Output power ports (conductive) 12
6.4 Impulse noise 12
6.5 Voltage fluctuations 13
6.6 Mains supply current harmonics 13
6.7 Measurement 14

7 Documentation for the installer of the apparatus/assembly of apparatus 16

Annex ZA (informative) Relationship between this European Standard and the Essential Requirements of Directive 2004/108/EC 17
