DIN EN ISO 15957:2015-08 (E)

Test dusts for evaluating air cleaning equipment (ISO 15957:2015)

Contents

Page

Foreword ... **3**

Introduction ... **4**

1 Scope ... **5**

2 Normative references ... **5**

3 Terms and definitions ... **5**

4 Test dusts designation ... **6**

5 Chemical composition ... **6**

6 Particle size distribution ... **6**

7 Particle size analysis procedure ... **7**
7.1 L1 test dust ... 7
7.2 L2 test dust ... 7
7.3 L3 test dust ... 7
7.4 L4 test dust ... 7

8 Production methods ... **7**
8.1 L1 test dust ... 7
8.2 L2 test dust ... 7
8.3 L3 test dust ... 7
8.4 L4 test dust ... 8

9 Properties ... **8**
9.1 L1 test dust ... 8
9.2 L2 test dust ... 8
9.3 L3 test dust ... 8
9.4 L4 test dust ... 8

10 Application ... **8**
10.1 General ... 8
10.2 L1 test dust ... 8
10.3 L2 test dust ... 8
10.4 L3 test dust ... 8
10.5 L4 test dust ... 8

11 Related standards ... **9**
11.1 L1 test dust ... 9
11.2 L2 test dust ... 9
11.3 L3 test dust ... 9
11.4 L4 test dust ... 9

12 Requirements for load test dust distribution ... **9**

Annex A (normative) **Material safety** ... **10**

Annex B (informative) **Literature review of mass size distribution of atmospheric aerosol particles** ... **11**

Annex C (informative) **Comparison of particle size distributions** ... **12**

Bibliography ... **13**
