ISO 4301-1:2016-07 (E)

Cranes - Classification - Part 1: General

Contents

Page

Foreword iv

Introduction v

1 Scope 1

2 Normative references 1

3 Definitions 1

4 Symbols 1

5 Use of classification 2
5.1 General 2
5.2 Use of classification for commercial specification 2
5.3 Use of classification in the design 2

6 Classification of crane duty for the crane as a whole 2
6.1 General 2
6.2 Total number of crane working cycles 2
6.3 State of loading 3
6.4 Group classification 4
6.5 Average displacements 5
6.5.1 General 5
6.5.2 Average linear displacements 7
6.5.3 Average angular displacements 7

7 Classification of components and mechanisms 8
7.1 General 8
7.2 Total number of component working cycles 8
7.3 State of loading 8
7.4 Group classification 9
7.5 Average displacements 9
7.6 Accelerations per movement 9
7.7 Stress histories 10

Annex A (informative) Examples for average displacements 11

Annex B (informative) Guidance for the conversion of M-classes 13
