European foreword 4

Introduction 5

1 Scope 6

2 Normative references 7

3 Terms and definitions 9

4 List of hazards 11

5 Safety requirements and/or measures 16
5.1 General 16
5.2 Load combinations and calculations 16
5.3 Base Frame 25
5.4 Mast, ties and buffers 26
5.4.1 Guide structures and masts 26
5.4.2 Mast ties 26
5.4.3 Buffers 26
5.5 Hoistway protection and landing access 26
5.5.1 General 26
5.5.2 Transport platform base enclosure 27
5.5.3 Landing access 31
5.5.4 Materials for enclosure and guarding 35
5.5.5 Landing gate locking devices 36
5.5.6 Clearances 37
5.6 Platform 38
5.6.1 General requirements 38
5.6.2 Safety devices against falling of the platform 42
5.6.3 Overload detection device 45
5.7 Drive unit 46
5.7.1 General provisions 46
5.7.2 Protection and accessibility 46
5.7.3 Suspension system 46
5.7.4 Braking system 49
5.8 Electric installations and appliances 50
5.8.1 General 50
5.8.2 Protection against electric faults 50
5.8.3 Protection against the effects of external influences 51
5.8.4 Electric wiring 51
5.8.5 Contactors, relay-contactors 52
5.8.6 Electric safety devices 52
5.8.7 Safety contacts 52
5.9 Control and limiting devices 53
5.9.1 General 53
5.9.2 Travel limit switches 53
5.9.3 Erection accessories 53
5.9.4 Stopping devices 54
5.9.5 Stopping the machine 54
5.9.6 Control modes 54
5.10 Safety Devices 55

5.11 Breakdown conditions 55
5.12 Noise 55
5.12.1 General 55
5.12.2 Noise reduction at the design stage 55
5.12.3 Noise emission measurement 56

6 Verification 56
6.1 Verification of design 56
6.2 Verification tests of overspeed safety device 58
6.2.1 Overspeed safety device and overspeed governors 58
6.2.2 Locking devices for platform and landing gates 60
6.2.3 Emergency manual lowering 61
6.3 Verification tests on each machine before first use 61

7 User information 62
7.1 Instruction handbook 62
7.1.1 Comprehensive information 62
7.1.2 of the instruction handbook 62
7.2 Markings 69
7.2.1 General 69
7.2.2 Rating plate 69
7.2.3 Mast or guide section identification label 69
7.2.4 Falling object protection guard label 69
7.2.5 Basic user information label 70
7.2.6 Label at the platform 70
7.2.7 Labels at transport platform access points 70
7.2.8 Overspeed device label 70
7.2.9 Drive motor label 71
7.3 Marking of control elements 71

Annex A (normative) European storm wind map 72

Annex B (normative) Performance levels for safety devices 73

Annex C (informative) Limit state proof of static strength 74

C.1 General 74
C.2 Limit design stresses for steel and aluminium 74
C.3 Load cases 74

Annex ZA (informative) Relationship between this European Standard and the essential requirements of Directive 2006/42/EC aimed to be covered 78
