DIN EN 500-2:1996-02 (E)

Safety of mobile road construction machinery - Specific requirements for road-milling machines

Contents

	Page
Foreword	2
0 Introduction	3
1 Scope	3
2 Normative references	3
3 Definitions	3
4 List of hazards	3
5 Safety requirements	3
5.1 Lighting	3
5.2 Design of the machine in relation to its operation and handling	4
5.3 Operator's station	4
5.4 Operator's seat	4
5.5 Controls	4
5.6 Starting	4
5.7 Stopping	4
5.8 Danger of falling off, access to operator's station and to service points	4
5.9 Precautions against hazards caused by moving parts	4
5.9.1 Milling equipment	4
5.9.2 Footguards	5
5.9.3 Lowering the milling drum	5
5.9.4 Elevating devices	6
5.10 Precautions against hazards caused by non-electric energy sources	6
5.11 Fire protection	6
5.12 Hazards due to extreme temperatures	6
5.13 Signal devices and warning signs	6
6 Instruction handbook	6
7 Marking	7
8 Verification of safety requirements/measures	7
