## Hydraulic fluid power - Test methods for hoses and hose assemblies

---

<b>Contents</b>		<b>Page</b>
Foreword .....		iv
Introduction .....		vi
1	Scope .....	1
2	Normative references .....	1
3	Terms and definitions .....	1
4	Visual examination of product .....	2
5	Standard tests .....	2
5.1	Dimensional check test .....	2
5.1.1	General .....	2
5.1.2	Measurement of outside and reinforcement diameters .....	2
5.1.3	Measurement of inside diameter .....	2
5.1.4	Measurement of concentricity .....	2
5.2	Proof test .....	3
5.3	Change-in-length test .....	3
5.4	Burst test .....	3
5.4.1	General .....	3
5.4.2	Procedure .....	4
5.5	Cold bend test .....	4
5.5.1	General .....	4
5.5.2	Procedure .....	4
5.6	Cyclic endurance (impulse) test .....	4
5.6.1	General .....	4
5.6.2	Procedure .....	4
5.7	Leakage test .....	8
5.7.1	General .....	8
5.7.2	Procedure .....	8
5.8	Adhesion test .....	8
5.8.1	General .....	8
5.8.2	Apparatus .....	9
5.8.3	Test specimens .....	9
5.8.4	Conditioning .....	9
5.8.5	Procedure .....	9
5.8.6	Expression of results .....	9
6	Criteria for acceptance .....	9
7	Identification statement (reference to this document) .....	9
Bibliography .....		10
