## Plating and anodizing lines - Safety requirements

---

| <b>Contents</b>         |  | <b>Page</b> |
|-------------------------|--|-------------|
| European foreword ..... |  | 6           |
| Introduction .....      |  | 7           |
| <b>1</b>                | <b>Scope .....</b>   | <b>8</b>    |
| <b>2</b>                | <b>Normative references .....</b>  | <b>9</b>    |
| <b>3</b>                | <b>Terms and definitions .....</b>   | <b>11</b>   |
| <b>4</b>                | <b>Requirements .....</b>  | <b>17</b>   |
| 4.1                     | General .....  | 17          |
| 4.2                     | Mechanical safety requirements .....   | 17          |
| 4.2.1                   | General .....  | 17          |
| 4.2.2                   | Measures against shearing, crushing, cutting, drawing in and impact hazards .....              | 17          |
| 4.2.3                   | Safety measures against loss of stability .....  | 19          |
| 4.2.4                   | Safety measures against entanglement and entrapment .....                                      | 20          |
| 4.2.5                   | Safety measures against slipping, tripping and falling .....                                   | 21          |
| 4.2.6                   | Safety measures against hazards by pressurized materials .....                                 | 21          |
| 4.3                     | Electrical safety requirements .....   | 21          |
| 4.3.1                   | General .....  | 21          |
| 4.3.2                   | Safety measures against electric shock .....   | 21          |
| 4.3.3                   | Protective measures against external effects on electrical equipment .....                     | 22          |
| 4.3.4                   | Protective measures against electric sparks / arcs .....                                       | 22          |
| 4.4                     | Safety requirements and protective measures against thermal hazards .....                      | 22          |
| 4.4.1                   | General .....  | 22          |
| 4.4.2                   | Measures against skin contact with hot surfaces .....  | 23          |
| 4.4.3                   | Measures against skin contact with hot fluids .....  | 23          |
| 4.4.4                   | Measures against thermal radiation and/or - convection .....                                   | 23          |
| 4.4.5                   | Measures against overheating of process chemistries .....                                      | 24          |
| 4.5                     | Safety requirements and protective measures against noise .....                                | 25          |
| 4.6                     | Hazardous substances .....   | 25          |
| 4.6.1                   | General .....  | 25          |
| 4.6.2                   | Health .....   | 28          |
| 4.6.3                   | Explosion .....  | 29          |
| 4.7                     | Safety measures against fire .....   | 30          |
| 4.7.1                   | General .....  | 30          |
| 4.7.2                   | Ignition sources .....   | 30          |
| 4.7.3                   | Constructive measures .....  | 31          |
| 4.7.4                   | Procedural measures .....  | 31          |
| 4.7.5                   | Thermal load .....   | 31          |
| 4.7.6                   | Fire alarm and extinguishing system .....  | 32          |
| 4.7.7                   | Additional measures .....  | 32          |
| 4.7.8                   | Information for use .....  | 32          |
| 4.8                     | Safety requirements against hazards by failure of energy supply or control .....               | 32          |
| 4.9                     | Safety requirements for control systems .....  | 33          |
| 4.9.1                   | Safety functions .....   | 33          |
| 4.9.2                   | Equipment .....  | 35          |
| 4.9.3                   | Failure or malfunction of control systems .....  | 36          |
| <b>5</b>                | <b>Determination of compliance with safety requirements and / or protective measures .....</b> | <b>37</b>   |
| 5.1                     | General .....  | 37          |

|  |  |           |
|--|--|-----------|
| 5.2  | Mechanical hazards .....   | 37        |
| 5.3  | Electrical hazards .....   | 37        |
| 5.4  | Thermal hazards .....  | 37        |
| 5.5  | Noise .....  | 37        |
| 5.6  | Hazardous substances .....   | 37        |
| 5.6.1  | General .....  | 37        |
| 5.6.2  | Health .....   | 38        |
| 5.6.3  | Explosions .....   | 39        |
| 5.7  | Fire .....   | 39        |
| 5.8  | Failure of energy supply .....                                     | 39        |
| 5.9  | Safety requirements for control systems .....                      | 39        |
| 6  | Information for use .....  | 39        |
| 6.1  | General .....  | 39        |
| 6.2  | Instruction handbook .....   | 40        |
| 6.2.1  | Minimum information of the instruction handbook .....              | 40        |
| 6.2.2  | Information relating to the use of plating lines .....             | 43        |
| 6.2.3  | Maintenance .....  | 43        |
| 6.3  | Marking .....  | 45        |
| <b>Annex A (informative) Significant hazards .....</b>   |  | <b>46</b> |
| A.1  | General .....  | 46        |
| A.2  | Mechanical hazards .....   | 46        |
| A.2.1  | General .....  | 46        |
| A.2.2  | Shearing, crushing, cutting, drawing in and impact hazard .....    | 46        |
| A.2.3  | Loss of stability .....  | 46        |
| A.2.3.1  | Loss of stability of plating lines .....                           | 46        |
| A.2.3.2  | Loss of stability of transporter system .....                      | 47        |
| A.2.4  | Entanglement and entrapment .....                                  | 47        |
| A.2.5  | Hazards by slipping, tripping or falling .....                     | 47        |
| A.2.6  | Hazards by pressurized materials and equipment .....               | 47        |
| A.3  | Electrical hazards .....   | 48        |
| A.3.1  | Electromagnetic fields .....                                       | 48        |
| A.3.2  | Electric shock .....   | 48        |
| A.3.3  | Electric sparks / arcs .....                                       | 48        |
| A.4  | Thermal hazards .....  | 48        |
| A.5  | Hazards generated by noise .....                                   | 48        |
| A.6  | Hazards resulting from dangerous substances .....                  | 49        |
| A.6.1  | Health .....   | 49        |
| A.6.2  | Explosion hazard .....   | 49        |
| A.7  | Fire .....   | 50        |
| A.8  | Hazards caused by failure of energy supply or control system ..... | 50        |
| <b>Annex B (informative) Examples of transporter units .....</b>   |  | <b>51</b> |
| <b>Annex C (informative) Examples of working areas .....</b>   |  | <b>56</b> |
| <b>Annex D (normative) Calculation of airflow for tanks with lids and open tanks .....</b>   |  | <b>59</b> |
| D.1  | Introduction .....   | 59        |
| D.2  | Calculations for tanks with lids .....                             | 59        |
| D.3  | calculations for open tanks .....                                  | 61        |
| D.4  | Calculations for enclosing hoods, tunnels .....                    | 62        |
| <b>Annex E (normative) Exhaustive list of the captured air velocities (mean speed) in the main bath used in plating and anodizing industry .....</b>       |  | <b>64</b> |
| <b>Annex ZA (informative) Relationship between this European Standard and the essential requirements of Directive 2006/42/EC aimed to be covered .....</b> |  | <b>75</b> |
| <b>Bibliography .....</b>  |  | <b>76</b> |
