ISO 18237:2017-10 (E)

Hydraulic fluid power - Method for evaluating water separation performance of dehydrators

Contents

Page

Foreword iv

Introduction v

1 Scope 1

2 Normative references 1

3 Terms and definitions 1

4 Symbols 2

5 Principle of test 2

6 Apparatus 2

7 Accuracy of measuring instruments and test conditions 4

8 Summary of information required prior to testing 4

9 Dehydrator performance test 5
9.1 Preliminary preparation 5
9.2 Addition of water to the test fluid 6
9.3 Dehydrator test procedure 6

10 Reporting 7

11 Identification statement 8

Annex A (informative) Test circuit 9

Annex B (normative) Test fluid specification 10

Annex C (informative) Test fluid quality checks 11

Annex D (informative) Test results sheet giving example data 13

Annex E (normative) Sampling and analysis procedures 14

Annex F (informative) Example graph 15
