

ISO 18237:2017-10 (E)

Hydraulic fluid power - Method for evaluating water separation performance of dehydrators

Contents		Page
Foreword		iv
Introduction		v
1 Scope		1
2 Normative references		1
3 Terms and definitions		1
4 Symbols		2
5 Principle of test		2
6 Apparatus		2
7 Accuracy of measuring instruments and test conditions		4
8 Summary of information required prior to testing		4
9 Dehydrator performance test		5
9.1 Preliminary preparation		5
9.2 Addition of water to the test fluid		6
9.3 Dehydrator test procedure		6
10 Reporting		7
11 Identification statement		8
Annex A (informative) Test circuit		9
Annex B (normative) Test fluid specification		10
Annex C (informative) Test fluid quality checks		11
Annex D (informative) Test results sheet giving example data		13
Annex E (normative) Sampling and analysis procedures		14
Annex F (informative) Example graph		15
Bibliography		17
