## Hydraulic fluid power - Method for evaluating water separation performance of dehydrators

---

<b>Contents</b>		<b>Page</b>
Foreword .....		iv
Introduction .....		v
1 Scope .....		1
2 Normative references .....		1
3 Terms and definitions .....		1
4 Symbols .....		2
5 Principle of test .....		2
6 Apparatus .....		2
7 Accuracy of measuring instruments and test conditions .....		4
8 Summary of information required prior to testing .....		4
9 Dehydrator performance test .....		5
9.1 Preliminary preparation .....		5
9.2 Addition of water to the test fluid .....		6
9.3 Dehydrator test procedure .....		6
10 Reporting .....		7
11 Identification statement .....		8
Annex A (informative) Test circuit .....		9
Annex B (normative) Test fluid specification .....		10
Annex C (informative) Test fluid quality checks .....		11
Annex D (informative) Test results sheet giving example data .....		13
Annex E (normative) Sampling and analysis procedures .....		14
Annex F (informative) Example graph .....		15
Bibliography .....		17
