Hydraulic fluid power - Method for evaluating water separation performance of dehydrators

Contents	Page
Foreword	iv
Introduction	v
1 Scope	1
2 Normative references	1
3 Terms and definitions	1
4 Symbols	2
5 Principle of test	2
6 Apparatus	2
7 Accuracy of measuring instruments and test conditions	4
8 Summary of information required prior to testing	4
9 Dehydrator performance test	5
9.1 Preliminary preparation	5
9.2 Addition of water to the test fluid	6
9.3 Dehydrator test procedure	6
10 Reporting	7
11 Identification statement	8
Annex A (informative) Test circuit	9
Annex B (normative) Test fluid specification	10
Annex C (informative) Test fluid quality checks	11
Annex D (informative) Test results sheet giving example data	13
Annex E (normative) Sampling and analysis procedures	14
Annex F (informative) Example graph	15
Bibliography	17
