ISO 4411:2019-10 (E)

Hydraulic fluid power - Valves - Determination of differential pressure/flow rate characteristics

Contents

Page

Foreword iv

Introduction v

1 Scope 1

2 Normative references 1

3 Terms and definitions 1

4 Symbols and units 2

5 Test installations 2
5.1 Selection, calibration and installation of equipment 2
5.2 Test circuit 2
5.3 Pressure-tapping points 4

6 Test procedures 5
6.1 Measurement accuracy 5
6.2 Test fluid 5
6.3 Temperatures 5
6.4 Steady-state conditions 5
6.5 Procedure 6
6.6 Pressure differential calculation 6
6.7 Presentation of the test results 6
6.7.1 General 6
6.7.2 Presentation 6

7 Identification statement (Reference to this document) 7

Annex A (informative) Use of practical units 8

Annex B (informative) Pre-test checklist 9
