

# ISO 21905:2020-03 (E)

## Gas turbine exhaust systems with or without waste heat recovery

---

<b>Contents</b>		<b>Page</b>
Foreword .....		v
Introduction .....		vi
1	Scope .....	1
2	Normative references .....	1
3	Terms and definitions .....	2
4	Abbreviated terms .....	3
5	Proposals .....	5
5.1	Purchaser's responsibilities .....	5
5.2	Supplier's responsibilities .....	5
6	Basic exhaust system design .....	5
6.1	General .....	5
6.2	Exhaust system configuration .....	6
6.3	Service life .....	6
6.4	Supply responsibility .....	6
6.5	GT characteristic data .....	6
6.6	Required operating envelope .....	6
6.7	Equipment specification .....	6
6.8	WHRU equipment specification .....	6
6.9	Operating conditions .....	7
6.10	Operating environment .....	7
6.11	Equipment arrangement .....	7
6.12	Provision for future addition of WHRU .....	7
6.13	Electrical equipment .....	7
6.14	Field assembly and disassembly .....	8
6.15	Special tools and fixtures .....	8
6.16	Spare parts .....	8
6.17	Deviations .....	8
7	Documentation .....	8
7.1	General .....	8
7.2	Data sheets .....	8
7.3	Supplier document requirements .....	8
8	Exhaust system engineering and design .....	10
8.1	Overview .....	10
8.2	Typical WHRU configurations .....	10
8.3	General .....	10
8.4	TEG flow-induced vibrations .....	11
8.5	Exhaust system casing and ducting .....	11
8.5.1	General .....	11
8.5.2	Hot casing design and materials .....	13
8.5.3	Cold casing design material .....	14
8.5.4	Flange bolts .....	14
8.5.5	Surface preparation and treatment .....	16
8.6	Mechanical and thermal analysis .....	17

8.7	Insulation and refractory .....	17
8.7.1	Exhaust system casing and ducting external insulation (hot casing design) .....	18
8.7.2	Exhaust system casing and ducting internal insulation (cold case design) .....	18
8.8	Noise emission and silencing .....	21
8.9	Stacks .....	21
8.10	Expansion joints .....	22
8.11	Steel structures, stairs, ladders and platforms .....	23
8.12	Preservation, handling, packing and storage .....	24
8.12.1	Handling and storage of materials .....	24
8.12.2	Handling and storage of construction material and subcomponents at suppliers works ....	24
8.13	Inspection and testing .....	25
8.13.1	General inspection .....	25
8.13.2	Specific inspection requirements .....	25
9	WHRU engineering and design .....	26
9.1	WHRU process design .....	26
9.2	WHRU tube bundle mechanical design .....	28
9.2.1	General .....	28
9.2.2	Pressure part design .....	29
9.2.3	Corrosion allowances .....	30
9.3	WHRU tube bundle design .....	30
9.3.1	Tube and bend materials .....	30
9.3.2	Tube bundle design conditions .....	30
9.3.3	TEG flow-induced vibrations .....	32
9.3.4	Tube supports .....	33
9.3.5	Tube fins .....	34
9.3.6	Tube bundle headers .....	35
10	Dampers .....	36
10.1	General .....	36
10.2	WHRU dampers .....	36
10.2.1	Damper and isolator types and functions .....	36
10.2.2	Damper and isolator design .....	40
10.2.3	Damper and isolator TEG leakage performance .....	41
10.2.4	Seal air isolation system .....	42
10.2.5	Damper casing and insulation .....	43
10.2.6	Blades, shaft and operating gear .....	43
10.2.7	Requirements specific to damper types .....	44
11	WHRU system control .....	45
11.1	General .....	45
11.2	Guidance notes .....	45
11.2.1	WHRU control philosophy .....	45
11.2.2	WHRU control philosophy -- Standby units .....	46
11.2.3	Signals .....	46
11.2.4	Wiring, junction boxes and protection .....	46
11.2.5	Control, instrumentation and protection equipment .....	47
11.2.6	HTM process side valves and piping .....	49
12	Access, inspection and maintenance .....	50
12.1	TEG path access .....	50
12.2	WHRU .....	51
13	Installation .....	52
14	Pre-commissioning and commissioning .....	53
15	Performance test .....	55
Annex A (informative) Application of computational fluid dynamics to exhaust system design .....		56

**Annex B (informative) Application of thermal and structural analytical techniques to exhaust system design ..... 65**

**Annex C (informative) Information to be provided by purchaser ..... 71**

**Annex D (informative) Fabrication and welding ..... 84**

**Annex E (informative) Data sheets ..... 94**

**Bibliography ..... 95**
